Dustin LaRue Wieser Concrete Safety Manager

Fire Dynamics has been a breath of fresh air for our plant in Portage and hopefully soon to be in all our Wieser Concrete plants. Craig does a great job communicating with everyone when he's in servicing our fire extinguishers. His hands - on training for fire extinguishers will have you at attention and leave you trained on how to use a fire extinguisher, what to do when doing monthly inspections and when to and not to fight a fire. His years of experience tied to his training will have adventurous stories to put firefighting into perspective. We are very thankful to have Fire Dynamics with us at Wieser Concrete.

A handwritten signature in cursive script, appearing to read "Dustin LaRue".
